

1. Score the 5 x 5" cardstock at 1" on all four sides. Cut four slits as shown; then fold into a box.
2. Score the 9 ½ x 3 ½" strip at 3, 4, 7, and 8". Score all the same direction.
3. Use a thin, rectangular die or punch to create a slit on the front of the "wrapper" that overlaps both the bottom and top flaps.
4. Cut or punch two circles or other shapes. Add two layers of dimensionals to the middle of one of the shapes and insert into the slit from the inside. Attach the other shape to the outside on top of the dimensionals. Embellish.

See the box in action by searching "locking box" at [www.youtube.com/stamphappynz](http://www.youtube.com/stamphappynz)
