

# Surprise Pop Up Card Basic Template

Jacque Williams [www.stamphappy.co.nz](http://www.stamphappy.co.nz)

\*\* All measurements can be adjusted. These are just starting suggestions.

1. Fold both pieces on the  $\frac{3}{4}$ " score lines in a valley – mountain fashion.
2. Turn the shorter piece around so the score lines are on the left hand side.
3. Fold the diagonal lines on the  $1 \frac{3}{4}$ " piece both in the same direction (no need to measure these, just fold them loosely as shown).
4. Adhere this small piece to the inner  $\frac{3}{4}$ " panel of the  $2 \frac{3}{4}$ " piece, just adhering on the triangle folded piece. The long flat edge should be facing towards the end  $\frac{3}{4}$ " panel.
5. Adhere the two pieces together at the furthest right and the furthest left  $\frac{3}{4}$ " panel.
6. Adhere a Window Sheet or cardstock strip to the other edge of the  $1 \frac{3}{4}$ " piece to create a pop up. Add a label or image to the end of the strip.
